

Christian Niedermueller

Christian Niedermueller is the CEO of Blocktrade SA, a digital assets exchange based in Luxembourg. Within his role, Christian leads the team along the shared vision of building Blocktrade into a modern Digital Asset Exchange that caters to both the crypto crowd as well as to people who have yet to explore the crypto space. At the same time, he is expanding the existing services and products, based on the needs of the community.

Christian has a strong finance background and has held senior positions at various international financial institutions, including UniCredit and HCOB. Having gained strong experience in the banking sector, Niedermüller went on to co-found DAIC Capital, and Smape Capital, at which he still holds the position of General Manager.

Niedermüller is a regular pre-seed/seed investor, co-founder and board member of the DAAA (Digital Asset Association Austria) and has been deeply involved in the digital asset ecosystem for over six years.
